

NPU SERIES

Features

- Nite-to-Lite® units feature H.I.D. energy savings and safety/security illumination. It's lamp/refractor system produce a wide distribution for maximum coverage.
- Skycap® units feature full cutoff distribution, H.I.D. energy savings and safety/security illumination. The reflector system is a great solution for light trespass and glare issues without sacrificing performance.
- All units feature a die cast aluminum housing, latch-on Type V refractor or refractor, lamp, photocontrol and mounting hardware.
- Distribution kits feature 5' prewired leads and 14" galvanized steel arm
- Utility kits feature terminal block and 24" aluminum arm
- NPU-BI reflectors also sold separately to solve light trespass from other full size "NEMA" fixtures.
